arrived at the Arlington this morning. The Territory of Idaho. THE MINING INTERESTS AND OTHER INTERin his annual report to the Secretary of the Interior states that the crops of the territory this year will not exceed a half crop, as compared with the year 1884. The products of the soil, wants of the rapidly increasing population. The report recommends that the United States urveys be extended in the northwestern portions of the territory, so that settlers may locate thereon. The mining interests are in a flourishing condition. New and rich mineral districts are being discovered. The Mad river mineral belt is yielding from 100 to 350 ounces to the ton. The great Salmon river pasin continues its output in gold and silver, as in former years. The new Lava district is coming to the front. The Saw Tooth district, when fully developed, is expected to pay well. There are now over 200 dividend-paying mines in the territory. The richness of the placer mines on Snake river is mentioned, and also the Couer d'Alene section. The Lost river copper mines are remarkably rich. The financial condition of the country is satisfactory. The cash in hand exceeds by \$5,500 the debt. The total assessed valuation of property for 1884 was \$15,497,598, an increase of \$1,509,000 over the preceding year. A strong plea is made for liberal construction of the desert land act. The report states that the late ruling of the commissioner of the general land office requir ing water to be conveyed to every fractional part of a desert land entry can hardly be regarded as a liberal encouragement to the poor and honest settler who seeks to build a hom for himself and family on worthless desertland. In order to carry out the rigid requirements of the land office in this respect it would necessitate the expenditure of \$8,010 on every desert land claim, and thus place the land beyond the reach of men of small means. The curtailment of the mail service is said to have resulted i great hardship and injury to many settlements and a more liberal policy is urged. The popula-tion of the territory is 75,000 and the value of the gold and silver product during the past year

is estimated at \$5,486,000. The Geological Survey.

ITS OPERATIONS DURING THE YEAR-GEOLOGI-CAL STUDY OF THE DISTRICT. Major J. W. Powell, the superintendent of the report to the Secretary of the Interior, states that during the past year fair progress has been made in the topographic survey of the United States. An area of 57,508 square miles has 409 NINTH STREET NORTHWEST. se19 been surveyed and the maps thereof made ready for the engraver. The average cost of the work has been about \$3 per square mile. The distribution of the work is as tollows: Massachusetts, 1,250 square miles; New Jersey. 1,268; Appalachian region, 17,640, Missouri-Kansas, 13,600; Texas, 4,000; plateau region. 15,000; Yellowstone park, 1,000; northern California, 3,750. The report states that the library contains 15,000 books and work, and it is proposed to prepare a catalogue of American and foreign publications upon American geology, which is to be a general anbeen issued. During the year a surveying party, under the direction of Mr. W. T. Grisword, have completed the triangulation and topography of 3,540 square miles, comprised in the counties of Allegany and Washington in Maryland, Mineral, Hampshire, Preston, Tucker, Grant, Hardy and Morgan in West Virginia, and Warren, Fredrick, Shenandonh and Page in Virginia. A party under Mr. Morris Blen have completed an area of 2 220 square miles comprising the an area of 2,920 square miles, comprising the whole or parts of Scott, Washington, Smythe, Tazewell, Bland, Wythe, Grayson, Carroll, Pulaski and Giles counties, Va. The report states that early in May of the present year it was decided to resume work in the neighborhood of the District of Columbia with a view to completion upon a scale of 1.62500 of the atlas maps, lying between latitude 38° 45′ and 39°, and longitude 76° 45′ and 77° 15′. This work was placed in charge of Mr. John D. Hoffman, topographer, (under the general direction of Mr. Gilbert Thompson) and to bit was a decided Magazine. Thompson), and to him were detailed Messrs.
D. J. Howell, Jeremiah Ahern, S. J. Wilson and several rodmen. Work was commenced in the southwestern part of the area, and is being prosecuted rapidly. The investigations of the superficial and other formations, and the fluviatile and litteral terraces of the District of Columbia and contigious territory commenced lumbia and contigious territory, commenced two years ago, has been prosecuted as energeti-cally as the pressure of other duties and the im-perfection of other maps permitted. DISCUSSING THE RESULTS.

After Election Talk in Washington. WHAT PROMINENT DEMOCRATS SAY OF YES TERDAY'S CONTEST AND THE PRESIDENT'S POLICY.

The democrats of Washington manifested in-

tense interest in last night's election returns. The feeling among them yesterday was in marked contrast with that which prevailed just subsequent to the Ohio election. Then accual depression was visible all along the democratic line, and but few ventured to hope of success beyond Virginia. But for ten days or more prior to the election of yesterday democratic spirits were upon a steadily ascending scale, and during yesterday the greatest confidence in the election of Gov. Hill was expressed. The news from New York and Virginia, the two hotly contested states, had a democratic coloring from the first. There was not so much boisterous demonstration as has been witnessed in Washington at times, but the feeling of exulta-tion was earnest. When the dispatches showed conclusively that the democrats had won in New York the question of the probable effect of the victory within the party was here and there quietly discussed by small groups of democrats. Some men of recognized prominence in the party exchanged views as to the way in which the President might regard the result, but they did so in a confidential way. Would the President take the result as an endorsement of his policy and adhere to it or would he see that the lemocrats had tought a hard fight and won in spite of that policy? That was the question of moment. The almost unanimous conclusion reached was that no change of policy need be expected, notwithstanding the manifest impatience of the democrats. One democratic Congressman seemed to express the views of other

earty leaders when he said:
"The President is honest and sincere in his course. He believes he is right and we feel sure he is wrong. He entered the office with the determination to carry out a certain line of policy, because he had satisfied himself was right, and I tell you, gentlemen, neither democratic successes defeats will move him. But I am in hopes that the President's eyes will yet be opened to the true sentiment of his party, and that he will put himself in accord with that sentiment; but at present he does not think of any change. In my conversations with him of late he has shown that he realizes the existence of discontent within the party, and he regrets it; but, as I have said, he believes he is right, and that those who grumble are wrong, and he means to

Some democrats were encouraged to believe that removals of republicans from office and the appointment of democrats in their places will go on more rapidly now, but there are others who hold that the President will not be department for the fiscal year ending June 30, Green... swayed one way or the other by the elections.

THE VICTORY DUE TO THE PRESIDENT. Judge McCue returned from Brooklyn this the ensuing fiscal morning and is elated over the victory. "We sirable that Congress may make proowe it to that man," he said, pointing to the vision to enable the medical department White House. "It was because the people had to adopt every means within its province to confidence in him that they voted for Hill. prevent, if possible, the spread of this disease in They knew he would not have supported Hill if the army. The general health of the army has he had not wanted him elected. They knew he was earnest in that. He demonstrated it by going several hundred miles to vote for htm. The victory is an endorsement of the administration." THE NEW YORK VICTORY NOT A SURPRISE TO

Second Controller Maynard returned from New York state this morning. He says the vic- that the death rate for commissioned officers tory in New York is not a surprise to him. It is | was slightly higher than for enlisted men is such a close state that there cannot be a straight victory for either party. There is an independent vote of about 75,000, composed of both parties, which can decide the result. While the so-called mugwump papers opposed Hill, the majority of the independents and republicans who voted for Cleveland supported Hill, and the democrats got the support outside of New York that Mr. Hill got the same support that was given for Tilden. Representative Frank Hurd says it is a splendid victory and highly gratifying, but he de-

clines to express an opinion as to whether or not the victory was an indorsement of the administration. STRENGTHENING THE ADMINISTRATION. Ex-Representative Casey Young said the victory would strengthen the democratic party. tration would be to strengthen it in its present policy, to which the victory would be consid-

THE VICTORY DUE TO THE PRESIDENT'S POLICY. Assitant Secretary Fairchild thinks the victory in New York is due to the policy followed by the President, and it is an indorsement of the administration. The President, Mr. Manning, Mr. Whitney and Gov. Hill were in perfect accord as to the President's policy confect accord as to the President's policy conerning the appointments in New York. He hinks any attempt to use the victory as an indorsement of any other policy, and to make the President act differently with regard to appointments will fail.

Gen. Rosecrans thinks the result of the elecion demonstrates that the democratic party can win against anything but traud. They can

Mr. Ray, of this city, who votes in Richmond. he said: "I will tell you where Gen. Lee got his big majority-from the dissatisfied republicans. Thousands of republicans in Virginia voted the democratic ticket because they wanted to put Mainone down. They don't like the man. They don't like his methods. He has made the party subservient to himself. I saw both white and colored republicans voting the democratic ticket. You remember that in the congressional convention last year of the fourth district Mahone put Hooper down. He would not let the convention nominate him. Well, in Prince Edwards, a strong republican county, Hooper ran this time, for the legislature against Mahone's candidate. Hooper got 900 votes, the Mahone candidate got 700, and the democrat a thousand. Riddleberger didn't do anything, neither did Gov. Cameron. Many of the repub-

licans wanted to bury Mahone out of sight, and they have done it." EXULTING OVER THE MUGWUMPS. The democratic countenance was wreathed in smiles to-day. "It's glorious," one would shout to a fellow democrat as they grasped hands cordially, and then a chords of exultant laughter would follow. Almost on every hand denunciation of the mugwumps and exultation over their downfall could be heard. In fact, this feature of the result seemed to me more "OLD FASHIONED DEMOCRACY" which holds with the new mayor of Baltimore,

that under democratic rule none but democrats should share in the feast of patronage. The very general rejoicing at the discomfiture of the mugwumps was frequently accompanied with the hope that they would never seek to affiliate with the democratic party again. The voting in New York is held to show that the democrats who left their party last year have returned, and among partisans they are greatly preferred to the mugwumps. There are indications, too, in the comment of democrats, which lend to show that the administration is returned, and among partisans they are greatly preferred to the mugwumps. There are indications, too, in the comment of democrats, which tend to show that the administration is not to receive any share of credit for the democratic successes. The alleged opposition of the President to Gov. Hill's nomination, and his refusal to write a letter during the canvass in behalf of the ticket are spoken of with emphasis. Apparently, it is the intention of that element of the party which adheres to the old Jacksonian ideas, to maintain that the New York contest was fought and won on a line diametrically opposed to the President's policy; that it was a straight democratic victory, and emphasizes the belief of the party in its old time principles. At any rate, the democrats who condemn the President's course with regard to filling the offices, are very much encouraged at the result in New York, and claim that it will strengthen the hands of that element of the party which will take issue in the next Congress with the administration. According to this element of the administration, according to this element of the party the President's course with regard to filling the offices, are very much encouraged at the result in New York, and claim that it will strengthen the hands of that element of the party which will take issue in the next Congress with the administration. According to this element of the democrats in the service of army regulations in the corps now authorized by army regulations in time of such hospitals corps with the ambulance corps now authorized by army regulations in time of such hospitals. A combination of such hospital corps with the ambulance corps now authorized by army regulations in time of such hospitals. A combination in the corps now authorized by army regulations in time of such hospital corps with the ambulance corps now authorized by army regulations in time of war, will place our army on most excellent footing for proper care, handling and treatment of sick and wounded at all times, without impa next Congress with the administration. According to this element of the party the President ought now to discard the mugwumps en-

Congressman Mitchell, of Connecticut, who

was met by a STAR reporter, expressed the greatest gratification at the result. He regarded as conclusive proof that the democratic part is growing stronger all the while with the Ex-Congressman Casey Young, of Tennessee, thought his party had done well, and he was particularly rejoiced at the defeat of the mugwumps. He said the democratic party was stronger to-day than ever before.

THE PRESIDENT'S RETURN.

He Sends Congratulations to Gov. Hill. The President arrived in the city from Buffalo at 10:30 this morning and the first thing he did on reaching the White House was to send a message of congratulation to Governor-elect DEMOCRATS CLAIMING IOWA. Hill. Col. Lamont says the President is delighted by the result. There never was any truth, he says, in all the talk about the Presi- RETURNS FROM OTHER STATES dent not wanting Mr. Hill elected. Mr. Hill had been identified with the Tilden reform movement. Hill had been elected on the same | ANOTHER ANDREW JOHNSON STORY ticket with Mr. Cleveland, and they were in accord. There never was any truth in the statement that Mr. Cleveland did not want Hill nominated. As to the President's policy with relation to the New York appoint ments, Secretary Manning and Secretary Whitney were in accord with the President, and the policy followed received the hearty approval of Mr. Hill. The victory, he says, is a great satis-faction to the administration and is an indorsement of it.

The President left Buffalo at 5 o'clock yester day afternoon, and came through direct, in the special car in which he left here on Monday morning. He came alone and was met at the depot by Col. Lamont.

PORTLAND, OREGON, Nov. 4 .- A dispatch from signal given at 9:30 a.m., many hundred citizens congregated and marched in an orderly manner along the streets to the Chinese houses. ordering the occupants to pack their goods and leave. The order was complied with. By five o'clock p.m. their goods were packed and load-ed on drays, and the Chinese were marching long by the side of loaded wagons en route to Lake View, nine miles south of here. The Chinese merchants were given until Wednesday morning to pack their goods, each store being allowed three assistants. One hundred and ninety-seven Chinese reached Lake View about seven o'clock p.m., and camped in vacant houses. It is not known whether they will take the morning train for Portland, but they probably will. Many of them are walking south on the railroad track. Citizens have sent to the Chinese provisions to last till morning. No trouble has occurred.

SEATTLE, W. T., Nov. 4 .- The jury in the case of the United States against Perry Bayne, after being out thirty minutes, returned at 7 o'clock last night with a verdict of not guilty. Bayne is one of seven men who were indicted for murder in the first degree for the killing of the Chinamen recently at Squak. The court room was filled to overflowing during the summing up by counsel, many ladies being present within the bar. The charge of Justice Green was elaborate and was listened to with the most rapt attention. The district attorney entered a nolle prosequi in two other charges of murder against Bayne. The six other men under indictment will be tried at once, Daniel Hughes, of Squak, coming first on the list. There are twenty-three indictments against these men. It is claimed.

It is asserted that the jury was reconvened in anticipation of serious trouble, should the Chirese refuse to leave on the date fixed by the so-called workingmen's league. The fact is that the district attorney and the grand jury have discovered the identity of certain leaders of the alleged tabor league and they will be indieted under sections of the United States Revised Statutes, which provide for the punishment of those who have intimidated foreigners. They will be prosecuted under the civil rights act to the full extent of the law. The grand jury have a number of witnesses will swear to personal intimidation.
